CATTLE WINTERED WELL

Messrs Fram, Wilson, and Bull, of Three Hills have taken their cattle which amounted in all to six cars back, after having wintered them around this district. The cattle were in fine shape and looking good.

WESTMINSTER CHURCH

MANSE BUILDING FUND
The Allie Ladies Aid have sent in to the Board of Managers of the Westminster church the sum of \$5.85 towards the Manse Building Fund.
The managers wish to thank the donors for their gift, which is the beginning of this fund, and for their help shown in such a practical way.

SUNDAY SCHOOL CHILDREN

SELL EASTER EGGS
The Children of the Westminster Sunday School were very busy Saturday selling Easter Eggs. Some of the ladies provided the eggs, while others decorated them. The Children earned in this way nearly six dollars for their Sunday school fund.

CAKE AND APRON SALE

REALIZED OVER \$80.00
The sale of work and home cooking, held by the Westminster Ladies Auxiliary realized the sum of over \$80.00. The object of the sale was the renovation of the church, and the ladies are to be congratulated on their splendid work.
The ladies wish to thank all who helped to make the sale such a success both by gifts of cooking and work, and personal help at the sale.

I. O. O. F. CENTENNIAL

ANNIVERSARY SERVICE
The Anniversary service of the Chauvin Lodge of Oddfellows will be held in the Westminster Church, on Sunday, May 4th, 1919, at 7.30 p.m.
A special address will be given by the Rev. J. C. Aderson, B.A.

EASTER MONDAY DANCE

The dance given by the Chauvin Branch of the Womens Institute, in the Killarney Hotel, on Easter Monday, was well attended. Good music, and good food, and everybody had a good time.

HAVE YOU GOT THE RIGHT LABEL ON YOUR AUTO

Our genial policeman will be around shortly to see if you have treated your automobile right and bought it a new label to wear. If you haven't, will better get one right away.

CHAUVIN OVER THE TOP

RED SHIELD CAMPAIGN

The committee of the Red Shield campaign in Chauvin have completed their canvassing, and wish to thank the splendid workers for their aid. They also appreciate the help shown in this great work of the Salvation Army.
The total fund objective was set for \$300.00 by the committee in charge and this is slightly exceeded by a few dollars.

AGRICULTURAL SOCIETY

DIRECTORS MEETING

Directors met in A. E. Keith's office, President L. Col. Rodden in the chair.
Moved Mr. Tooth—G. Leggett, that minutes be adopted as read. Carried.
Moved G. Leggett—H. Young, that the matter of Mr. Schellers bill for advertising be tabled.

The secretary reported that A. E. Keith had informed him that he had interviewed the council and they were willing that cattle should be kept out of Fair Grounds and that they would provide a lock gate if necessary.

Mr. Tooth reported that at the entertainment at the hotel held on April 7, he had sold a number of tickets, and that everything had gone off splendidly. He also stated that people objected to having to pay entrance fee to grounds on fair day, after buying a membership ticket.

Secretary read a letter from Wm. C. Rodden, regarding the offer of the Shorthorn breeders, which was satisfactory.

The following committee was appointed to arrange the prize list for the fall fair: Geo. Leggett, J. Murray, H. Young. The Ladies and Childrens committee be arranged by Mrs. Armour, and Mrs. Holbrook.

The Editor of the Chauvin Chronicle had offered half a column of the local paper, to be known as the Agricultural Section, on condition that it should be filled by the Directors of the Society. The Society was instructed to prepare a list and assign a date to each director, when he will be responsible for filling of this column.

Moved by H. Young—Mrs. Armour, that committee be appointed to investigate the cost of putting up stalls for horses. Carried.

Committee:—W. T. Watson, A. E. Keith, Thos. Smith.

Moved J. Tooth—Mrs. Holbrook, that Monty's bill of \$28.50 for pump and C. G. Forry's bill for \$30.00 for rent for hall be paid.

Mrs. Armour said that as she did not know exactly what her expenses to convention were, she would not put in a bill.

Moved, Mrs. Holbrook—J. Tooth, that the Society put on record as being in favor of the tariff reduction as laid down in the Farmers' Platform, and that the Secretary advise our member, Mr. Blair, to that effect. Car.

Moved, J. Tooth—Thos. Smith, that we have 1500 prize lists printed and distributed by mail. Carried.

Suggestions as to Special Prizes be laid to Prize list committee.

Moved J. Tooth—Hugh Young, that members of Society be admitted free to Fair Grounds.

The following committee was then appointed:—J. Tooth, Mrs. Armour, Mrs. Holbrook, A. E. Keith, Thos. Smith.

Moved, G. Snell—G. Leggett, that the Secretary and President write a letter of sympathy to Mr. J. Wright and his wife. Carried.

Moved, Mrs. Holbrook—Thos. Smith, that we charge \$3.00 for dance in hall. Amended:—A. E. Keith, that we charge \$5.00. Amended: Carried.

Moved, J. Tooth—A. E. Keith, that \$3.00 be paid for use of piano on night of Delegates report. Carried.

Secretary reported that \$8.00 had been paid for rent of room in Hotel, for entertainment on April 7.

Mr. D'Albertain then addressed the meeting explaining the use of column of paper to Society.

Moved, Mrs. Armour that meeting adjourn.

P. H. PERRY, Sec.-Treas.

S. Burth has been spending a few days in town and has now departed taking his Haynes car West.

EDMONTON PACKING BUSINESS

SHOWS BIG INCREASE

In December 1918 the shipments of one of the packing plants at Edmonton in payment of the stock and in freight and wages reached the great sum of \$1,254,000. This is an indication of the great strides Northern Alberta is making as a live stock country.

MANITOULAKE

COUNCIL MEETING

Report of the meeting of the Council of the Rural Municipality of Manitou Lake No. 442, held at Marsden Monday April 14th 1919. All the Council being present.

The minutes of the last meeting were read and approved.
It was agreed with the Secretary that he retain office until the arrival of his son, or other new Secretary, and to remain with him if needed for one month to ensure a clear and correct carry-over.

A delegation attended the meeting to ask the Council's recommendation to the Department of Education that the Fram School site be removed from section 11-45-28-3 to a position one mile south, to make it more convenient for the childrens attendance at school. Sections 18-19 and fractional 24 to be eliminated from the district.

Applications for seed grain were made from several C.P.R. contractors which were granted in consideration of their giving collateral security with lent for the childrens attendance at school.

Applications for seed grain were made by entrants on lands as yet unpatented. These could not be granted, the time for the application to the Department having expired.

Applications for advance for seed grain was made by a ratepayer who had negotiated a loan with (Continued on inner page)

MANITOULAKE TELEPHONE MEETING

A meeting of the Directors of Manitou Lake Rural Telephone Co., was held at Brady School Saturday, April 13th, with the President in the chair.

Minutes of previous meeting were read and approved.

Mr. Palmer was present desiring to know his standing as regards the phone. Mr. Palmer has sold his farm but the directors unanimously voted him the privilege of using any phone in the system for the present.

A by-law was drawn up and after being read three times was passed to the effect that: Any subscriber desiring the phone removed from their residence must pay a fee of three dollars. The Secretary to pay for such removal.

ANOTHER CASE OF

BEING WOUND DOWN

WITH THE HONOUR

Easter service at Killarney was augmented and ably assisted by the Junior Choir of Westminster church.

Choir of Westminster church, which Mr. Keith, who can always be counted on to rise to the occasion, drove out in his big car. Other distinguished visitors were Mr. and Mrs. Parcells, Ruth, and of course "Teddy" but the directors unanimously voted him the privilege of using any phone in the system for the present.

Naturally the regular Killarneyites felt highly honored by the visit, and when one of the Managers heard of it he immediately became anxious about the unreliable legs belonging to some of the church chairs, "I'm thinking," said he, "if we're going to have the City Father's and such like celebrities, at the service we'll have to be getting those chairs humped!"

Moral—Come again, but choose your chair, with care!

Owing to pressure on our space we are obliged to limit the chapter of the Serial, besides many other interesting items.

THE FARMERS' PLATFORM

(Published by Request)

1.—A House of Commons of the Imperial Government to give permanence to the world's peace by removing old causes of conflict.
2.—We believe that the further development of the British Empire should be sought along the lines of partnership between nations free and equal, under the present governmental system of British constitutional authority. We are strongly opposed to any attempt to centralize imperial control. Any attempt to set up an independent authority with power to bind the Dominions, whether this authority be termed parliament, council or cabinet, would hamper the growth of responsible and informed democracy in the Dominions.

3.—Whereas Canada is now confronted with a huge national war debt and other greatly increased financial obligations, which can be most readily and effectively reduced by the development of our natural resources, chief of which is agricultural lands.

And whereas it is desirable that an agricultural career should be made attractive to our returned soldiers and the large emigrated immigration, and owing to the fact that this can best be accomplished by the development of a national policy which will reduce to a minimum the cost of production.

And whereas war has revealed the anomalies of the Great Empire, which has enabled her to finance, not only her part in the war, but also the financing of her Allies to the extent of hundreds of millions of pounds, this enables position being to the free policy which has enabled her to draw her supplies freely from every quarter of the globe and consequently to undersell the products of the British Empire. We believe that the British Empire should be served by reciprocal action on the part of Canada through gradual reductions on the tariff on British goods, the reduction of duties on union and a better understanding between Canada and the Motherland and at the same time bringing about a reduction in the cost of living to our Canadian people.

4.—That where the Protective Tariff has been placed, in almost every line of Canadian industrial enterprise.

And whereas the means of which we live, people of Canada, both urban and rural, have been shamefully exploited through the elimination of competition, the reduction of many of our smaller industries and the advancement of the great trusts, and the monopolistic goals to the full extent permitted by the tariff.

And whereas agriculture—the basic industry upon which the success of other industries primarily depends—has been unduly handicapped throughout Canada as shown by the declining value of the produce of the farm, and the loss of the largely to the greatly increased cost of agricultural implements and machinery, clothing, drugs, and other household material and practically everything the farmer has to buy, caused by the Protective Tariff, so that it is becoming impossible for the farmer to produce under normal conditions, to carry on farming operations profitably.

And whereas the Protective Tariff is the most wasteful and costly method ever devised for raising national revenue, because for every dollar that it raises, the public treasury at least three dollars pass into the pockets of the privileged classes at the expense of the masses, thus making the rich richer and the poor poorer;

And whereas the Protective Tariff has been and is a chief corrupting influence on our national life because the protected interests, in order to maintain their unjust privileges, have obstructed lavishly the political and campaign funds, thus encouraging both political parties to look to them for support, thereby lowering the standard of public morality.

Definite Tariff Demands

Therefore be it resolved that the Canadian Council of Agriculture, and the representative organized farmers of Canada, urges that as a means of remedying these evils, and bringing about a more equitable and sane tariff system, the following tariff demands be adopted:

—By an immediate and substantial all-round reduction of the customs tariff.

—By reducing the customs duty on goods imported from Great Britain to one half the rates charged under the general tariff, and that further gradual uniform reductions be made in the remaining tariff duties.

—That all tariff concessions granted to Great Britain and Canada within five years.

—That the Reciprocity Agreement of 1911 which still remains on the United States statute books, be accepted by the parliament of Canada.

—That all food stuff not included in the Reciprocity Agreement be placed on the Free List.

—That all tariff concessions granted to (Continued on inner page)

ARTLAND NOTES

A building outfit arrived on Thursday for the new elevator that the "Atlas" Co. of Winnipeg propose to put up at this point.

It affords us much satisfaction to record this little item of news, marking as it does, a fresh and important step in the continued progress of Artland.

As one of our esteemed residents remarked, "our eyes are getting somewhat strained in looking out for the arrival of the Bank," why tarry so your chariot wheels? Is what we sometimes ask."

If we could at the same time, and by the Merchants Bank were opening an office in Main Street, the effect would have been increased.

As he seemed inclined to gloom, we whispered "Amen" cheerfully, and passed on.

Mr. Newport, one of the recent arrivals in this district went out to his place last week, with four loads of furniture.

We understand that he expects to be joined by his family at an early date.

Alfred Scott of Edmonton, who later

ly returned from the War, is busy in these days in connection with operations on Cection 31-43.

George Preston has recently bought a Fordson tractor.

BEING AN EDITOR

Most any man can be an Editor. All the Editor has to do is to sit at a desk six days a week, four weeks a month, and twelve months in a year and edit such stuff as this:

"Mrs. Jones, of Cactus Creek, let a can opener sail last week and cut herself in the pantry. Joe Dee climbed on the roof of his house last week looking for a leak and fell landing on his back porch. While Harold Green was escorting Miss Violet Winsor from the Church Social last Saturday night a savage dog attacked him and bit Miss Green on the public square. Mr. Frang while harnessing a broncho last Saturday was kicked just south of his corn crib."

MANITOU TELEPHONE MEETING

(Continued from front page)

Mr. Scott having rented Olaf Andersons farm and desiring to have a phone installed, it was agreed by the Directors that a written order would have to be obtained from Lewis Streim, district administrator of Olaf Andersons estate before such phone could be installed.

Secretary was instructed to return C. Kettellwell account as per share money.

Extension work was now dealt with. Mr. Wm. Wright was engaged to do the extension work, he to be assisted in each case by the subscriber who was having a phone installed. The Directors agreed to remunerate Mr. Wright at the rate of \$1. per hour for time actually engaged on each job.

Walter Smith, having made application for a phone and paid the necessary share money, it was decided to instal a phone for him at once since no poles were required in the installation of such.

Secretary was instructed to write Dept. of Telephones as regards the number of phones to be placed on current's 1 and 2.

A resolution was unanimously passed by the Board of Directors that James Coe, as well as other returned soldiers be granted free use of any phone in the System for the period of one year.

Some accounts were passed and cheques issued in payment.

Meeting adjourned to meet at the call of President.

MANITOU LAKE

Mortgage Co. and in accordance with the Seed Grain Act this was referred to the Loan Co. to handle.

Roads

The proposed road to Learig School came up for discussion again, and was left over until next meeting, meanwhile a sub-committee was instructed to inspect the location.

A petition from ratepayers in 45-28-3 was being in asking for \$200 to be expended in improving the road on the west side of sections 39 and 31, the lands being fenced on either side and the road impassable, a slough interfering.

This was left till next meeting, and councillor to inspect meanwhile.

It was resolved that the rate of pay for road work be the same as last year.

It was resolved that in accordance with the amended Municipal Act the Councillors indemnity fees be raised from \$3 to \$4 per day and the reeve from \$4. to \$5 per day, Councillor Graham objecting.

It was resolved that the Council authorize the Reeve and Secretary to borrow from Banks the sum of \$10,000 for current Municipal expenditure and \$10,000 for school levies and \$4,000 for Telephone levies, \$14,000 had been borrowed for Seed Grain advances authorized by the Seed Grain Act.

An account of \$400 having been incurred for attendance on the late Ed. Wolfrum at the Royal Alexandra Hospital, the Council, without admitting any responsibility, agreed to pay

the sum of \$100 towards the account.

Several accounts for hospital attendance on maternity cases were passed, subject to the number of days charged being made conformable to the maximum of 21 days agreed upon by the conference of the Municipalities concerned.

A Hospital charge was handed in for attendance on a non resident, this being referred back to the Hospital Board, the matter concerning an adjoining Municipality.

It was resolved to order 500 doses of Blackleg Plitrate and 3 Syringes. Dr. Folkins account for attendance on influenza patients was dealt with. The charges were for quarantining and disinfection etc. The advice of the Department had been sought as to responsibility, the reply being that the Council were not responsible, unless some agreement had been made with the Doctor. It appeared that only in cases of real destitution were the council liable. But an agreement having been made with the Dr. in this case it was ultimately decided to

pay the account amounting to \$291, to inform him that as from January 1st last, all charges made by him must be collected by himself.

Pending the Completion of the Public Health Bye Law it was decided that each Councillor act as a Public Health Inspector in his own territory and the Reeve to act as such in the Municipality generally. These Inspectors to act in conjunction with the Medical Health Officers in cases of emergency.

Accounts were approved for payment amounting to \$4000, including \$500 for Gopher Poison; \$2400 for Seed Grain advances; Bank Interest charges \$89; Chauvin Chronicle \$35; Burial costs charged to estate \$36; Hospital charges \$103.50; Health account \$291.

Next meeting at the Reeve's residence Monday, May 5.

Note to ratepayers, Secretary is in attendance at the office or at Mr. Chapman's.

CHAUVIN AGRICULTURAL SOCIETY COLUMN

By arrangement with the Chauvin Chronicle the Chauvin Agricultural Society have decided to make this column in the local press a regular feature. The directors, in turn, will participate by contributing the matter for insertion. It is hoped that this will allow of presentation of many of the agricultural questions, in their local application, and may be of service to the members of the society and to every farmer in the district.

BRIEFS ABOUT AN AGRICULTURAL FAIR

The Agricultural Fair is intended by the Government of a province or country to be an important educational factor in the lives of the rural community.

When agriculture is the basic industry of a country or province it becomes important for the profitable progress of the country and its people that there should be some means of educating the farmer along intelligent, uniform, and up to date lines. For in the basic industry of a country lies the potential wealth of that country.

One of the ways chosen by the government to help the cause of agriculture is by the agricultural fair, which is a sort of object lesson to illustrate the theory of good farming and stock raising methods.

That this object lesson has proved a success is shown by the increase in Government Grants each year.

Bringing in exhibits on Fair day is one of the healthiest ways of stimulating that spirit of friendly rivalry, which in its finest form is the surest way of putting a district out of the Dead-head into the Go-a-head class.

A good turn out of Exhibits on Fair day is also one of the most substantial ways there is of advertising the excellency of our particular district. Exhibits, like facts, being the chieftains that winning.

Fair day being a field day for all of us, it becomes everybody's affair to see that it is a success, when everybody has a shoulder to the wheel, it has no chance to get stuck in the Mud of indifference.

Fair day is the day when we meet old friends and make new ones, and find we are all the better for the day off from the daily chores, for what saith Solomon "As iron sharpeneth iron, so doth the face of man his friend."

Thus Fair day besides providing a valuable lesson in education along farming and stock raising lines, leading to success—is also an aid to the growth and encouragement of that community spirit which is the best antidote to be found for the all pervading industrial unrest, and class distrust we hear so much of. The more of this spirit we can have, the better are we fitted to stave the other spirit off, and to hasten instead, the coming of that day Robbie Burns sang of a century ago, "When man to man the world o'er shall brothers be for a' that."

THE FLOWER GARDEN

BY M. J. TINLINE B.S.A.

Supt., Scott Experimental Farm.
Three factors used in ornamental gardening are trees, shrubs and flowers. Of these the flowers are no doubt the most interesting to the average amateur gardener. The flowers may be divided into three classes, perennials, those that have to be started in the hotbed and the annual flowers that can be sown out of doors. For the most part the flowers grown in northwestern Saskatchewan are annuals that are sown out of doors.

On the Scott Station a large number of flowers are tested out each season and the following list is given that will grow in the open. No attempt is made to describe the appearance of these flowers since this information can be secured from any seed catalogue. A postcard sent to any of the seed houses will secure a catalogue free of charge.
Alyssum, African Daisy, Asters, Calendula, Centaurea, Clarkia, California Poppy, Godetia, Lilium, Larkspur, Marigold, Mignonette, Nemesis, Poppy, Salpiglossia, Virginian Stocks.

NOTICE To Employers

The Workmen's Compensation Act, 1918 provides that every employer of labor coming within the scope of the Act, shall forward each month a statement of his payroll to the Workmen's Compensation Board at Edmonton. As the Act is now effective, employers should at once communicate with the Secretary of the Board, who will forward such forms and information as are necessary.

Does a Farmer Need a Truck?

The farmer with a Ford Truck practically lives next door to the market.

He has a choice of markets. He becomes more independent.

He can market his goods when and where he pleases.

He sells his crop to the very best advantage.

And his hauling costs him less—in labor and money.

It is not only cheaper to haul with a Ford Truck than with a team and wagon, it is quicker, it is easier work.

Consider the time and labor the farmer can save with a Ford Truck. With a team the trip to town takes the better part of a day.

A Ford Truck makes the same trip in two or three hours.

When labor is so scarce, what farmer can afford to waste days after day of his valuable time?

Ford Trucks Complete with Body and Enclosed Cab

Ford One-Ton Trucks are now supplied, if desired, with standard truck bodies in two types, the Stake Body and the Express Body.

In both standard bodies the cab may be supplied with or without doors as desired.

See these complete Ford Trucks. Consider the matter from every angle: the cost of feeding horses; the cost of running a Ford Truck; the time you lose on the so far from the best market. There is only one conclusion you can come to. You will have a Ford Truck.

SUNDAY SCHOOL LESSON

Sunday, April 27th, 1919: The Holy Spirit Our helper. Acts 2: 1-8, 14-18

Last week's lesson closed with the call of Jesus to the Disciples to meet him in Galilee. At that meeting he commands them to be witnesses for him to all nations; but they are not to undertake this alone. He will be with them in a new form as the Holy Spirit. At Pentecost, they feel that the promised helper has come.

GOLDEN TEXT: If ye then, being evil, know how to give good gifts unto your children, how much more shall your heavenly Father give the Holy Spirit to them that ask him? Luke 11: 13 (Rev. Ver.)

BRER RABBIT AND BRER FOX

Brer Rabbit was a naughty, cunning little creature, and as saucy as a jack-bird. He was always playing tricks on his neighbors, and they were always trying to catch him. But it wasn't by any means an easy task to catch Brer Rabbit.

One day Brer Wolf said to Brer Fox. "If we don't get that little varmint for supper tonight," says he, "I'll give up being a wolf, and cut grass. You just run along home and get into bed and make out your dead," says he, "and don't you say anything till Brer Rabbit comes and puts his hands on you. Then we'll get him right enough."

So Brer Fox went home and got into bed, and Brer Wolf he marched off to Brer Rabbit's house, and knocked at the door.

"Bad news, Brer Rabbit," says Brer Wolf. "Poor Brer Fox died this morning, and I'm off to arrange the funeral," says he.

Brer Wolf trotted away, and Brer Rabbit went round to Brer Fox's house to see what he could see. He peeped up, and there was Brer Fox stretched out on the bed as stiff as a poker, looking as if he was dead. But Brer Rabbit was always so wide awake to be easily deceived, and he says out loud, as if talking to himself.

"Poor old Brer Fox! I hope he isn't dead; but I expect he is. I'd better sit here till the neighbors come round. But I wonder if he's really dead," says Brer Rabbit in a kind of doubtful way. "Doesn't look like it," says he. "You can always tell when a Fox is dead by the way he keeps shaking his hind leg," says he.

When Brer Fox heard this, he thought he'd show he was really dead, and began shaking his hind leg, and as soon as Brer Rabbit saw it he tore out of the house as fast as he could, and did not stop till he reached the safety of his own home. Brer Wolf and Brer Fox had to go to bed without any supper that night.

What is the difference between Noah's Ark and Joan of Arc?

One was made of wood and the other was Maid of Orleans.

Why is coffee like a blunt axe?

Because it can be found before it can be used.

Why is it foolish for a man to buy a short walking-stick?

Because it can never be long to him.

Why should blacksmiths be shunned as companions?

Because they are never given advice, and are for ever striking.

What man is like an unfriendly dog?

A dentist, because he always shows you his teeth.

Why are church bells like disobedient children?

Because they are never quiet when they are told (told).

What kind of dress is like an arm chair?

A sat-in (satin) one.

What are the names of three girls who can spell their names backwards?

If they wish to, and spoil them correctly?
Hannah, Eve, and Ada.

What is it that everybody can make best in a hurry?

Haste, of course.

How many letters are there in the word DONE?

TWO. For if you take away the first letter only ONE remains.

THE TURNING IN

THE LONG LANE

Without doubt the next move in the game of politics is due to be made by the farmer. Just because he's such hands, it has taken him a longer time to catch on to the long evident fact, that most of his time in the past has been spent acting as doorman for the other fellow to wipe his feet on, as he (the other fellow) passes on to success. But even a doorman can get where it can hold no more, and the farmer is getting round to the idea that if he wants relief for his economic burdens, and fair play, he'll have to go into the political arena and wrestle for his rights himself. Parliamentary benches seem to have a curious somnolent effect on most of our Western members, somehow, but

we reckon that even if they do invite our farmer candidate to "sit easy, and play the game like other politicians," the memory of his own experiences—maybe the price of that last binder he bought—will keep him from succumbing to the voice of the party tempter. For experience is the lad that takes off our rose colored spectacles and replaces them with the True Perspective optics. Without doubt the 'perspective' ahead of the farmer, and indeed of the country is sufficiently clear to make us turn to any practical sound remedy offered to lighten the prospect,—and to take that remedy as our own, and give it a chance to do something for us.

To change the simile—Shakespeare said, long ago that "there is a tide in the affairs of men which taken at the

food leads on to fortune."

The tide of farmer affairs is at the flood now, and it depends on our ability to launch our barque of organization upon it, whether we will be borne on to fortune, or remain stuck in the mud of misfortune.

We will have to take somebody on trust, we have taken our former party candidates and their various shortcomings with much trustfulness in the past, why not extend the same faith a little further to the man who is one of ourselves, especially when, before he became acceptable to us as a farmer's man, he has to swear allegiance to the referendum and recall, which while it may act as a sort of irritating check rein on a M.P. of unsettled and easy led nature, has no terror at all for the fellow, who is doing his hardest to get what his constituents have entrusted him to get for them. The old time farmers doated of his individualism and of his independence, but the new style farmer knows that paradoxical as it may seem the modern short cut to independence lives in co-operation. Therefore he joins the Farmers' Union in his district, and gives it his support, knowing that it will accomplish for him, by reason of its strength results he could never alone have reached in a lifetime "kicked" he ever so diligently. For it is curious, but true, that as we make common-places as individuals it is treated by the Powers that be, as a "kick," but the moment we protest as an organization, it becomes "a cause," and gets into the spotlight of attention commonly kept for "Causes," and as you know sportsmen have a knack of showing up that we've been having cause to "kick," (that last sentence sounds like the weather man winding his heat waves round the cold waves, but probably it will not strain the average farmers' intellect to get the meaning out of it.)

In view of all that, therefore, it would seem that no matter how party-bound we are we are going to betray ourselves—and our brother producers and fellow consumers, if we vote for either of the old parties on the usual basis of vague promises—let us remember that there's no sell like the sell of partyism for growing a bunch of broken pledges, for the spirit of partyism is content to see its man get in that is about glory enough for it, and renders it careless of others laurels. Taken all in all there seems no other political platform formulated so suitable to the needs of all of us everyday workaday folks, as the Farmers' Platform, which, though called the Farmers' is broad enough, weighty enough, and stout enough to hold all of the West, urban and rural, demanding as it does economic reforms, and tariff reductions which are required as much by the country merchant, and the citizens of the towns, as their fellow buyers and producers in the country.

Too long has a Nervy Preference masquerading as a National Policy, increased the price of everything nearly that we look on as absolute necessities, of life. Let us pin our faith in future to the platform that suits our needs, and though our "set notions" may cause our Eastern Politicians to, wry test we are becoming "unpatriotic" and "disloyal" in our desire for reciprocity and other kinds of fair play, it is about time for him to be worrying, he's had the preference as long he ought to be able to keep the Wolf of Want from his mansion door, quite a while, on the strength of the profits of past political policies.

At any rate let us at least give the Farmers' Platform—appended below—the 'once over' and another for luck if we prefer being just to ourselves, and our future interests to being silly partisan sheep, at the mercy of wily interests who have got the idea that we Westerners, or our profits are their lawful legitimate prey, and are ready to call us all sorts of names, in their rage over our having come to our senses, speaking politically and literally.

THE FARMERS' PLATFORM

(Published by Request)

(Continued from front page)
other countries be immediately extended to Great Britain.

g.—That all corporations engaged in the manufacture of products protected by the customs tariff be obliged to publish annually comprehensive and accurate statements of their earnings.

h.—That every claim for tariff protection by any industry should be heard publicly before a special committee of parliament.

i.—That as the tariff reductions may very considerably reduce the national revenue from that source, the Canadian Council of Agriculture would recommend, that, in order to provide the necessary additional revenue for the carrying on the government of the country and for the bearing of the cost of the war, direct taxation be imposed in the following manner:—

(a) By a direct tax on unimproved land values including all natural resources.
(b) By a graduated personal income tax.
(c) By a graduated inheritance tax on large estates.

d.—By a graduated income tax on the profits of corporations.

e.—That in levying and collecting the profits tax the Dominion Government should insist that it be absolutely upon the basis of actual cash invested in the business and that no considerations should be allowed for what is popularly known as watered stock.

f.—That no more natural resources should be alienated from the crown, but brought into use only under short-term leases, in which the interests of the public shall be properly safeguarded, such leases to be granted only by public auction.

g.—The Returned Soldiers

5 With regard to the returned soldier, we urge:—

a.—that it is the recognized duty of Canada to exercise all due diligence for the future well-being of the returned soldier and his dependents.

b.—that demobilization should take place only after return to Canada.

c.—that first selection for return and demobilization should be made in the order of length of service of those who have definite occupation awaiting them or other assured means of support, preference being first given to married men and then to the relative need of industries, with care to ensure as far as possible the discharge of farmers in time for the opening of spring work upon the land.

d.—that general demobilization should be gradual, aiming at the discharge of the men only as it is found possible to secure steady employment.

e.—it is highly desirable that if physically fit discharged men should endeavour to their former occupation, and employers should be urged to re-employ such men in their former occupations wherever possible.

f.—that vocational training should be confined to those who while in the service have become unfitted for their former occupation.

g.—that provision should be made for insurance at the public expense of unemployed men who have become undesirable risks while in the service.

h.—that facilities should be provided at the regarded as an assessable value for the purpose of public expenditure in order to induce returned soldiers to settle upon farming land when by training or experience they are qualified to do so.

i.—We recognize the very serious problem confronting labor in urban industry resulting from the cessation of war, and we urge that every means, economically, feasible and practicable, should be used by federal, provincial and municipal authorities in relieving unemployment in the cities and towns; and, further recommend the adoption of the principle of co-operation as the guiding spirit in the future relationship between employer and employees—between capital and labor.

Land Settlement

7. A land settlement scheme based on a regulating influence in the selling price of land. Owners of title areas should be obliged to sell at a selling price of their lands, that price to be of taxation.

8. Extension of co-operative agencies in agriculture to cover the whole field of marketing, including arrangements with consumers' societies for the supplying of foodstuffs at the lowest rates and with the minimum of middle-man handling.
9. Public ownership and control of railway, water and aerial transportation, telephone, telegraph and express systems, all projects in the development of natural power, and of the

coal mining industry.

Other Democratic Reforms

10. To bring about a greater measure of democracy in government, we recommend:—
a.—the immediate repeal of the War Times Election Act.
b.—the discontinuance of the practice of conferring titles upon the citizens of Canada.
c.—the reform of the federal senate.
d.—an immediate check upon the growth of

government by order-in-council and increased responsibility of individual members of parliament in all legislation.
e.—the complete abolition of the patronage system.
f.—the publication of contributions and expenditures both before and after election campaigns.
g.—the removal of press censorship upon the restoration of peace and the immediate restoration of the rights of free speech.

the setting forth by daily newspapers and periodical publications of the facts of their ownership and control.
i.—proportional representation.
j.—the establishment of measures of direct legislation through the initiative, referendum, and recall.
k.—the opening of seats in parliament to women on the same terms as men.

Help the Y.M.C.A. Finish its Work For Soldiers

Help the "Y" Construct the Manhood that will Re-construct Canada

ALL the world now knows that the Red Triangle of the Y.M.C.A. was the "Sign of Friendship" to thousands of your brothers, sons, nephews, cousins and neighbours' boys in the last four and a half years. Wherever the Canadian Soldiers went, the "Good old 'Y'" went too. And now it is coming back home with them!

For the support which has made possible the war work of the Y.M.C.A. we thank you. Your money has been well expended. We have rendered full account.

We ask now your continued sympathy and support for Red Triangle Service for our Soldiers during demobilization, and for Y.M.C.A. work for Canada generally during the Reconstruction period. The Annual Red Triangle campaign will be held throughout Canada May 5th to 9th, 1919. The objective is \$1,100,000.

The Y.M.C.A. will keep its chain of Service units till the end.

For Our Men Returning

For the soldiers and their dependents, returning from Overseas, we have provided as follows:—

1. A Red Triangle man on board every ship when it leaves Great Britain, with a full equipment of games, gramophones and records, magic lantern, literature and writing materials. Where possible, also a piano or an organ. Lectures, concerts, singing, instruction in Government reparation plans, and Sunday Services.

2. Red Triangle comforts and facilities for the men on arrival at Halifax, St. John, Quebec and Montreal, including coffee stalls, with free drinks, free canteens, cigarettes, candies, etc.

3. Red Triangle men on every troop train to provide regularly free drinks, cigarettes and cigars, organize games and sing songs, and furnish information.

4. Red Triangle free canteen service, information bureau, etc., at each of the 22 Dispersal centres in Canada.

5. Red Triangle Clubs in the principal cities of Canada in the shape of large Y.M.C.A. hostels to furnish bed and board at low rates and to be a rendezvous for soldiers.

6. Seventy-five Secretaries to superintend Red Triangle service in Military Hospitals, Camps and Barracks throughout Canada.

7. Tickets entitling soldiers to full Y.M.C.A. privileges for six months at any local Y.M.C.A. furnished.

In addition to our work for the returning soldiers, we have to maintain the Red Triangle service to the full for the soldiers in Siberia, as well as the work of special secretaries in Northern Russia, Palestine and Poland.

For Canada's Manhood

The Reconstruction program of the Y.M.C.A. includes the following vitally important developments:—

1. An increased service to 300,000 teen-age boys in the Dominion—the development of Canadian Standard Efficiency training, Bible Study groups, summer camps, conferences, service for High School boys, for working boys, in the towns and cities; for boys on the farm and for boys everywhere, who have lacked opportunity for mental, moral, physical or social development.

2. Inauguration of Y.M.C.A. work in the country, and the smaller towns and villages lacking Association buildings and equipment, on a plan of county organizations. This will include the establishment of Red Triangle centres for social, recreational and educational work among boys and men, in co-operation with the churches.

3. The promotion of Y.M.C.A. work among Canada's army of workers in industrial plants, both in Y.M.C.A. buildings and in the factory buildings, organizing the social spirit among the industrial workers of our cities by meetings, entertainments, games and sports.

4. The establishment of the Red Triangle in isolated districts where lumbermen, miners and other workers hold the front trenches of industry.

5. Besides these main fields of increased activity for 1919, we have to provide for enlarged work among railway men, college students and for our campaign to encourage physical and sex education. Under all our work we place the fundamental foundation of manly Christianity.

Y.W.C.A.

For the wives and children Overseas, dependent upon Canadian soldiers, and for Y.W.C.A. work in Canada generally, a sum of \$175,000 from the Red Triangle Fund will be set aside for the Dominion Council of the Y.W.C.A., which is caring for the soldiers' women folk, and their little ones on the long journey, from Liverpool to Canada, and is also extending its work for Canadian girls.

For their sake also be generous when you make your contribution.

FOR the sake of our victorious soldiers and their dependents, and the happiness of their home-coming; for the sake of our future citizens, our teen-age boys; for the sake of rural life in Canada; for the sake of the social betterment of the toilers in factory and workshop; for the sake of lonely men and boys in our mines and forests; for the sake of Christian Society and Canadian manhood—we appeal to you. Give us your contribution, little or big. Be as generous as you can.

Hand your contribution to the canvasser when he calls, or if you live where it is difficult for him to call, send it by check, money order or registered letter to the National Treasurer, Red Triangle Campaign, 120 Bay Street, Toronto.

Please Note:

We are not asking for money to carry on our work Overseas, with the Army in Great Britain, France or Belgium. That work will continue at its maximum for some months, financially provided for by the liquidation of our assets Overseas, and will not terminate till the last man has sailed for home.

Solicitor, 508 Tegner Bldgs., Edmonton**MOONBEAMS**Well dear readers, it's last quarter
feels quite good, thank you. And, by
the way, if your not feeling good your-
self, well just keep your bowels work-
ing right, say your prayers and do a
good turn for your neighbour once a
day for the next six weeks. (This is
a guaranteed cure for all but funda-
mental complaints, and is offered free
of cost)Talking about the 'hearts of oak',
during the past week we have ob-
served no less than three Englishmen
planting maple trees.A pert young married man recently
observed that his neighbours had put
an excellent fence around their pre-
mises. Said he to the lady of the gar-
den "Hailo are you putting up a fence
to keep Buffalo!" Our young friend
all but collapsed, on hearing the quick
reply, "No, Buff Orpingtons"The best of workers in the best of
work are but human, and sometimes
makes mistakes and may give reason
for offence. Once, somewhere, there
lived and worked one who never made
an error or did a wrong thing: that
person was taken outside the town and
hanged with two thieves. Meanwhile,
moderms say that "he who never makes
a mistake, never makes anything"Was it a cloudy night and we did
not hear aright: it sounded like 'Oh,
well I'll never have anything more to
do with them again.' Never in the
sunlight can a determined sin of con-
tinued omission make amends for an
inadvertent sin of commission. But
say, nobody needs to be told such a
thing as this. Everybody in our dis-
trict is going to put together.When a town ceases to grow it com-
mences to die, and the more the peo-
ple try to kill off each other in their busi-
ness, and good name, the more rapidly
will utter ruin come to all. Stand to-
gether for the advancement of every
citizen. If a man shows ability to
prosper do not pull him back with
jealousy or weigh him down with cold
indifference.**IT PAYS TO ADVERTISE**
